DROPBOX ONLINE STORAGE

Dropbox is a FREE service that lets you bring your photos, docs, and videos anywhere and share them easily. Dropbox was founded in 2007 two MIT students tired of emailing files to themselves to work from more than one computer.

Today, more than 300 million people across every continent use Dropbox to always have their stuff at hand, share with family and friends, and work on team projects.

DROPBOX ONLINE STORAGE

You can use Dropbox with a regular desktop computer, a laptop, an iPad, a tablet, an iPhone or other Smart phone – all you need is internet access.

If you have other family members (like grandkids) who use your computer, this would be a great place for them to save their work.

DROPBOX ONLINE STORAGE

Why would we want to use this?

- Simplify your life!
- Access it from anywhere
- It's FREE
- Up to 2 Gigabyte

One gigabyte (GB) is about 1 billion bytes, or 1 thousand megabytes. A computer might have 4 GB of RAM. A flash memory card used in a camera might store 8 GB. A DVD movie is roughly 4-8 GB.

- Purchase more storage as needed
- Share links to your documents with others

Idea: You could send a link to relative for to your Christmas pictures.

THINGS I HAVE LEARNED ABOUT DROPBOX

- It truly is easy to use
 - It is fast!
 - It works well on my iPhone and iPad
 - You can have more than one account
 - You can share files between accounts
 - Why did I wait so long to start using it???!?
- 

LET'S TAKE A LOOK...
