*The secret of getting ahead is
getting started. – Mark Twain*

Support and Encouragement when YOU need it most!

It Makes Dollars & "Sense" for You

Did you know that by obtaining your high school diploma, you can earn over \$10,000 MORE per year?

Our enrollment fee is \$100, OR take advantage of a **FREE** enrollment opportunity in early September. Don't wait!

Already working full-time? No problem! You can complete our online coursework from the comfort of your home during hours that are most convenient for you.

Get started easily

We make it a very simple process to get started at the Online Lab!

We will assist you with determining what classes you need in order to graduate from our program.

You can get started any time you are ready!

An Alternate Approach

This is not a "traditional" high school classroom setting. We offer a great online program called Edgenuity which you can access from our state-of-the-art computer lab at Wamego High School or access 24/7 from your home.

All coursework is done online.

Lessons are taught virtually by actual instructors in short 5 – 10 minute video lectures combined with practice work, quizzes, and tests. A great note-taking ability is built right into the system to make you more successful.

The Online Lab has convenient outside access and is located off the WHS student parking lot directly south of Sonic.

Lab hours are 9:00 am – 3:00 pm weekdays and the lab is open year-round except for July.

"The ability to obtain a diploma from USD 320 can be a reality for anyone in our surrounding communities," says lab Director Jana Lindley. "We provide support, encouragement, and a great atmosphere for learning, and Edgenuity online courses will work well for those who are committed to succeed."
